

ASWINROSHAN RAJENDRAN

Growth Operations & GTM Strategy

Paris, France | aswinroshan17@gmail.com | +33 7 45 53 22 98 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Business Operations and Growth professional with 5+ years in digital transformation, AI automation, and go-to-market execution across nonprofit and global tech organizations. Skilled in identifying operational bottlenecks, designing scalable business systems, leveraging AI automation, and transforming data into strategic decisions that improve efficiency and drive growth. Seeking Growth Ops / GTM / RevOps / Business Operations Associate roles.

EXPERIENCE

Growth Ops, Data & AI Intern | Chain of Events

Oct 2025 – June 2026

Paris, France · On-site

- Delivered **AI Automation** across research, data enrichment, and lead qualification using n8n, Python, OpenAI, and Gemini, reducing manual effort across growth and operations teams.
- Supported **Go-to-Market (GTM)** strategy and execution for Paris Blockchain Week, RAISE Summit, and MACHINA Summit using Clay, Apollo, Lemlist, Instantly, and LinkedIn automation, strengthening lead generation and **Stakeholder Management**.
- Built scalable data intelligence pipelines by scraping, enriching, and validating event platform data into CRM-ready datasets and dashboards, strengthening **Business Intelligence** for cross-team decision-making.
- Applied **Strategic Planning** to design an executive engagement strategy on X (Twitter), identifying influential founders, investors, and C-level leaders to strengthen brand visibility and thought leadership.

Business Operations Analyst | All India Newspaper Editors & Publishers Association

Oct 2020 – Sep 2023

Chennai, India · Hybrid · Contract

- Led **Business Analysis** for the association's **Digital Transformation**, redesigning onboarding with an integrated digital application and payment platform, improving data accuracy by **40%** and reducing processing time.
- Designed executive dashboards for membership growth, **Revenue Operations (RevOps)**, and operational KPIs, delivering **Business Intelligence** that enabled real-time, data-driven leadership decisions.
- Automated **Business Operations** via Google Apps Script, driving **Process Optimization** that improved data accessibility by **60%**, automated **80%+** of documentation, and saved **~10 hours per week**.
- Applied **Strategic Planning** to pitch a Honda partnership providing free safety helmets for journalists, driving **20-35% growth** in membership and engagement.

Operations Coordinator | All India Newspaper Editors & Publishers Association

Jul 2018 – Sep 2020

Chennai, India · On-site · Civil Service Internship

- Coordinated operations for **5+ national conferences**, applying **Stakeholder Management** to align government officials, media organizations, and cross-functional teams and ensure seamless execution.
- Tracked and analyzed communication response metrics across **1,500+ media relationships**, applying **Marketing Operations** to streamline workflows and reduce administrative response times by **40%**.
- Developed a **strategic partnership** initiative with Honda that provided safety helmets to 500+ journalists, strengthening member engagement, corporate relationships, and the association's social impact.

PROJECTS

Executive Growth Intelligence Dashboard

- Built an automated daily pipeline pulling registrant and revenue data from Swoogo via OAuth2 into a **live Looker Studio dashboard**, giving leadership **real-time revenue and ticket-category KPIs** without manual reconciliation.

Skills: n8n, Swoogo API, Google Sheets, Looker Studio, Revenue Operations, Business Intelligence

AI Content Growth Engine

- Built an AI-powered workflow that automatically converts podcast episodes into **SEO-optimized blog posts and platform-specific social content**, cutting manual turnaround time and maintaining a consistent multi-channel publishing cadence.

Skills: OpenAI, n8n, SEO, Content Automation, AI Workflows

AI Market Intelligence Platform

- Deployed an AI classification workflow that continuously monitors **5 subreddits in real time** with a **≤1hr freshness filter**, replacing manual community monitoring with always-on, LLM-classified market intelligence.

Skills: n8n, Reddit API, OpenAI, Gmail, Google Sheets, AI Classification
